DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: there are no prior arts teaching or suggesting of an apparatus within a mobile vehicle for receiving signals representing weather products broadcast by a plurality of broadcast stations, the apparatus comprising:

a receiver for receiving the signals from different ones of the plurality of broadcast stations as the mobile vehicle traverses a path, wherein the signals comprise updated weather products;

a reconstruction device for forming the weather products from the signals; and

a display responsive to the reconstruction device for displaying the weather products.

A method for disseminating weather information to a mobile vehicle, comprising:

collecting weather data;

forming weather products based on the weather data; and

providing the weather products to a plurality of broadcast stations; and

transmitting the weather products from the plurality of broadcast stations coincident with the broadcast of a radio frequency signal for receiving at the mobile vehicle, wherein the mobile vehicle receives updated weather products from different ones of the plurality of broadcast stations as the mobile vehicle traverses a path.

Art Unit: 2636

A method for disseminating weather information to a mobile vehicle, comprising:

collecting weather data;
forming weather products based on the weather data; and
transmitting the weather products as one or more of text and graphics from base stations of a cellular telephone communications system, wherein the mobile vehicle receives updated weather products as the mobile vehicle traverses a path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
